Wolfen Enterprise Company Limited

# ABOUT US

Wolfin is a company created by people coming from different horizons, with different cultures, but as common point more than 20 years experience in global shoes market. Our main areas of expertise are especially the motorcycle boots, and high technical performance shoes.

One of Wolfin priority : to provide an effective interface between our customers and their needs. We are able to offer a complete and serious service, a competitive price, and a solid support from conception to delivery.

We have developed under our brand, a strong OEM basis in order to show our capability. From this base, our customers can make all the desired changes whether from a technical or aesthetic point of view (color, material...) thus defined, the product will be exclusive to them.

We can also work on own customer' specifications. Here you can submit specific design project, all the technical characteristics and our R&D team will develop it to the final product. It becomes a completely customized and exclusive article.

An important point, when our team work on a new product, we deliver it well on compliant with the legislation of the market. (For example CE for European market...).

Our technical know-how, well connected to the industries, Europe designers working and easy communication will make you happy to work with this great team.
